Figure 1 is a line graph showing the percentage of total protein in the supernatant versus the percentage of total protein in the pellet for various proteins. The y-axis is labeled "Protein" and ranges from 0 to 100. The x-axis is labeled "Protein" and ranges from 0 to 100. The legend indicates: 100% (solid line), 75% (dashed line), 50% (dotted line), 25% (dash-dot line), and 0% (dotted line). The curves show that as the percentage of total protein in the pellet increases, the percentage of total protein in the supernatant decreases. The curves are labeled with protein names: BSA, IgG, and PEG.
